Figure 1: A detailed phylogenetic tree showing the relationships between 40 individuals, categorized by their status (e.g., 逗子開成中, 逗子中, 沼間中, 久木中, 葉山中, 南郷中). The tree is rooted on the left and branches out to the right. Each individual is represented by a name and a status in parentheses. The tree is color-coded: red lines indicate the primary lineage, while grey lines indicate secondary or tertiary lineages. Numerical values (e.g., 15-5, 15-10, 15-11) are placed along the branches, likely representing genetic distance or time. The tree is divided into several major clades, with some individuals (e.g., 山田 敬仁, 山瀬 航大, 米谷 大樹) showing distinct relationships within their respective groups.
